Business Guide Creation step by step

Use this guide to help you figure out your next steps for building a business. A
Worker Creation Guide

.whom you dream about

1. Create a name for your business.

a. The business project can be as easy as possible, as you can use your name or take inspiration from your name and make it your project

As my own site now. Don't make it difficult - choose a name so you can get started, if you don't like it, you can change it later.

2. Submit all the necessary papers in your country + city. This depends on the country in which you live

3. Preparing a bank account for the business

You can easily determine if you check the workers account with your business expenses first if the business account requires a large minimum for deposit or something, but it is important to keep your business money separate from your personal money from the beginning until it is really difficult to change it.

4. Think with whom your business idea would be suitable / or who will buy your product or maybe you are with a company

Looking for an idea or product?

-You need to know who you're selling back to, and know how to market and grow your business. Sit and think about the high health organization

- Find a place/client hangout online (or even an internet connection if possible).
- If you are marketing to people up to 55 years old, they will not be on Instagram so don't waste your efforts there;
- If you're talking to a 25-year-old single woman, she's not on Facebook, so you won't want to make that a part.

What is your strategy...

5. Find out where your next customer connects with social texts and make it your #1 social platform

- to start the marketing

6. Get the interface of the month (Explore) on the text.

-Instagram - Get an interface with hashtags and collaborate with other accounts that have your third customer.

- Facebook - Join Facebook groups with your third customer. LinkedIn - Create content that speaks to your customers

-Whatever the text, use it to stand up to the right people. 7. Find some

-The third and the use of taxonomies. Which

Third customers and make a presentation for them for free

7. Find some 3rd clients and offer them to do their work for free

-Yes, this kind of work is to get good degrees and it can sometimes be difficult to get those

-Testimonials when you're new. So, reach out to people who match your customer avatar and make an offer

-or at a reduced price (a better word for this is "trial version"). Then, use those testimonials and keywords to get

To help them is free

More customers and clients. It's the snowball effect.

8. Start setting up your pricing structure and start shipping!

a. Research what you want to do with your market research (seeing what others in your industry are charging/wanting to pay, talking to

Your next customer, etc.) And start doing it.
